All points accumulated by the Partner are valid for 1 (one) year from the date of their allocation. The number of points earned by the Partner one year prior to the calculation date is reviewed daily. The resulting number of points is considered the current active partner points and is taken into account when determining the Partner's current rating.

After the validity period expires, the points earned are no longer considered when determining the Partner's ranking in the Partner Program.

Partners can track all clients that have purchased Bitrix24 Products from them or signed up from a link with their Partner Referral ID. 11. PARTNER'S SUPPORT

11.1. Partner's Support Service Level

Partners have access to priority support service. In order to get access to priority support, a Partner needs to use accounts linked to the Partner's Profile, such as an NFR cloud account or a Partner user account linked to the Partner Dashboard. Depending on the source, subject and urgency of the request, Bitrix24 Partners are required to choose the appropriate support channels recommended by Bitrix24. General Rules and Procedures for Bitrix24 support for Partners is described in Guidelines available for download at <https://Partnerportal.bitrix24.com/~Qem2Y>.

11.1.1. Live Chat Support inside Bitrix24 Cloud Accounts

Live chat support can be accessed from inside Bitrix24 cloud accounts with commercial or NFR subscriptions. The chat is available to users with administrator rights and to users invited to the Bitrix24 account as a Partner, even on accounts without commercial subscriptions. For general inquiries or Partner Program related questions, Partners should use their NFR accounts. When contacting support from a client account, Partners should only address issues related to that client's account.

11.1.2. Helpdesk Support via Tickets for Partners

The Bitrix24 Helpdesk ticket system is available for Bitrix24 Partners only. Partners are required to submit a support ticket using the Helpdesk page (<https://helpdesk.bitrix24.com/ticket.php>), by logging in with a user account linked to a Partner Profile. However, it is still recommended that all issues be first addressed via the Live Chat from the Partner NFR account as it is a faster and more efficient way to receive product consultation.

11.1.3. Support by E-mail

Bitrix24 does not provide any technical support over e-mail. All technical questions, bug reports and feedback should be sent through the recommended

support channels (live chats and Helpdesk tickets). Inquiries concerning the Partner Program, product pricing and licensing can be sent to the appropriate e-mail contact listed in “[Section BITRIX24 ENTITY CONTACTS](#)”.

11.1.4. Marketplace Apps Support

Bitrix24 Marketplace App consultations and support are provided by the corresponding Marketplace App developer. Available support options are available in the support tab of the App page on the Bitrix24 Marketplace (<https://www.bitrix24.com/apps/>).

11.2. Client Support Rules for Partners

All Bitrix24 Partners should provide clients with accurate and up-to-date information about Bitrix24 Products. Silver and Gold Partners are required to provide non-technical first-line support via email and by phone. Silver and Gold Partners have the ability to set up a direct support chat in their clients’ cloud accounts. Partners’ employees working directly with clients are required to have a **Bitrix Partner Program Tutorial** completion certificate. Partners are obligated to keep track of all updates to training materials and documentation provided by Bitrix24 as described in “[Section : PARTNER’S TRAINING AND CERTIFICATION](#)”.

In communication with clients, Partners are not allowed to:
